

MUCH MORE THAN TOOLS

THE TOOLING JOURNEY

DEDIENNE AEROSPACE provides all types of tooling for your fleet while also guaranteeing competitive prices. Whether you require aircraft tooling, engine tooling or Ground Support Equipment, with DEDIENNE AEROSPACE you will receive the best level of support. Thanks to our large stock of parts, we can respond to your urgent requirements quickly.

We are experts in the field of tooling and offer repair, calibration, upgrade, load-testing and training services, as well as spare parts. Our worldwide customer-support teams are at your disposal and guarantee the shortest shop processing times.

Thanks to our global presence, you can rest assured that we are never far away.

ENGINE TOOLING

From engine installation/removal to shop equipment, DEDIENNE AEROSPACE has all of the engine maintenance tooling that you need.

We are an official licensee of CFM, GE, Rolls-Royce, and Pratt & Whitney, and we also have extensive expertise in IAE programs. Our expertise in the technical field of engine equipment extends to nacelle tooling with Collins Aerospace.

Tools provided by DEDIENNE AEROSPACE are fully compliant with the latest OEM specifications.

When it comes to engine maintenance, we are your best partner.

- COVER & ENGINE PRESERVATION

LEAP TOOLING

Wanna get all of the latest information & news? Find out about our activities and how to get involved in our LEAP tooling program? Then scan this code to go to leaptooling.com

ENGINE STANDS

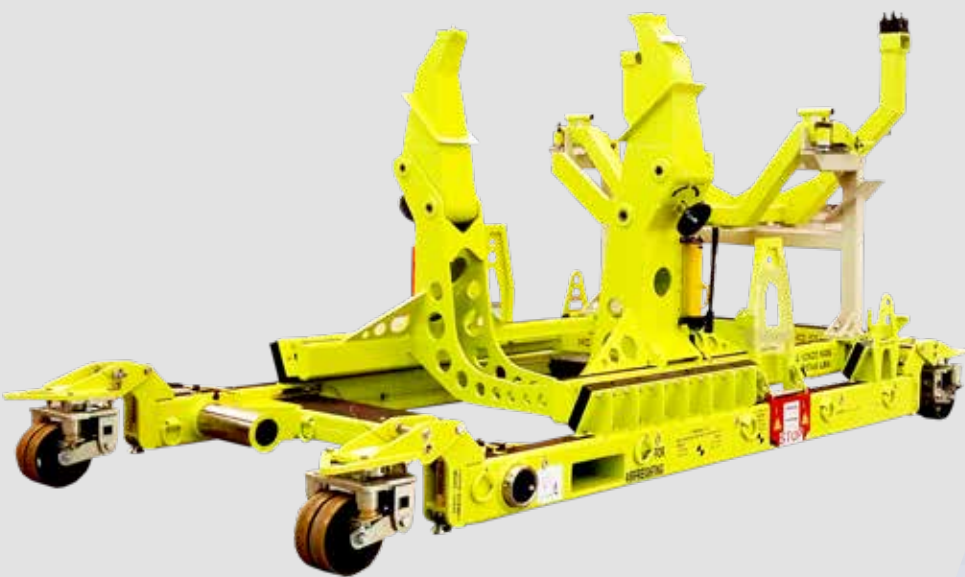

Our shipping stands guarantee safety and reliability during the transportation, installation and removal of your engines.

DEDIENNE AEROSPACE shipping stands are designed and qualified with Engine OEMs. They are shockproof and insusceptible to vibrations from 7 to 10 Hz. Our engine stands meet all of the specific requirements of transportation and installation/removal operations.

DEDIENNE AEROSPACE works with Rolls-Royce, GE, Pratt & Whitney and Safran Aircraft Engines. We also partner with Collins Aerospace and Safran Nacelles.

///ORIGINAL EQUIPMENT MANUFACTURER

- CFM (GE & SAFRAN AIRCRAFT ENGINES)

- COLLINS AEROSPACE / PRATT & WHITNEY

GROUND SUPPORT EQUIPMENT

Not only user-friendly, reliable and multi-purpose, our wide range of Ground Support Equipment is also customer-oriented. Whether you need tripod jacks, axle jacks, tow bars, servicing carts, fluid dispensers, access platforms or nitrogen/oxygen solutions, you will find the GSE that you need for your daily maintenance requirements at DEDIENNE AEROSPACE.

In the event of a special enquiry, our engineering department will design the state-of-the-art-solution that you are looking for. To ensure that products are serviceable at all times, spare parts are always kept in stock.

///WIDE RANGE OF PRODUCTS

- TRIPOD JACKS
- AXLE JACKS
- TOW BARS
- SERVICING CARTS
- GAS FILLING
- LANDING GEAR CHANGE
- FLUID DISPENSERS
- ACCESS PLATFORMS

AIRCRAFT TOOLING

At DEDIENNE AEROSPACE, aircraft tooling goes back a long way. In 1983, we became the first Airbus licensee. Since then, our cooperation with Airbus has continued to grow.

Today, we are also proud to be a licensee of Boeing, Collins Aerospace, Comac and Sukhoi. Thanks to our expertise and standard of service, many of our customers trust our proficiency in build-to-print projects and turn to us for the joint development of specific equipment on a Design-and-Make basis.

To provide clients with a wide range of cost-effective tooling services, we have built a resilient global supply chain.

///ORIGINAL EQUIPMENT MANUFACTURER

- BOEING
- SUKHOI
- COMAC
- COLLINS AEROSPACE

NACELLE TOOLING

Scan this code to go to our website dedicated to A350 and A320neo nacelle tooling. Discover our tooling catalogues and get in touch with our nacelle team!

SHIPPING CONTAINERS

A cocoon for your sensitive components, DEDIENNE AEROSPACE containers will ensure that your products remain completely safe.

Designed in collaboration with aerospace companies, our containers are manufactured to meet standards, ATA300 and SAE/ARP1840.

The use of high-grade steel and aluminum, as well as composite-material technology, lets us offer one of the widest ranges of shipping containers on the market.

To ensure that our containers always remain serviceable, spare parts are kept in stock.

///ORIGINAL EQUIPMENT MANUFACTURER

- CFM - CFM 56 / LEAP
- PRATT & WHITNEY
- GE - GE90 / GEnx
- EA - GP7200
